# How to Submit an Individual Abstract

## Individual Abstracts

- All individual abstracts must be 500 words or less. Submitters will be asked to categorize their abstract into 1 of the 18 Program Areas. Individually submitted abstracts will be paired with discussants that can offer constructive suggestions on the abstract. We will do our best to make that happen, but recognize that it might not be possible, in which case we'll do our best to identify someone else.
- Individual abstracts not selected by the scientific review committee for inclusion in a session will be considered for inclusion in the poster session if requested by the author during the submission process.

## Individual Abstracts

If you are interested in submitting a session but need additional abstracts to complete your session, we invite you to review the Single Abstract Listing which will be updated weekly as submissions are received. This listing includes the program area and abstracts for each single abstract submitted for inclusion in the 2022 ASHEcon Conference. If you find an abstract (or abstracts) in the listing that you would like to use to create or fill out a panel, we encourage you to reach out to the author (contact information is in the document) and see if they would like to be part of the panel. If they would like to be part of the panel, they would need to withdraw their single abstract submission (they can do this by logging into the abstract system via the link in the confirmation email received when the abstract was submitted) and resubmit the abstract as part of the new panel. Fully submitted organized session submissions have an average acceptance rate of 80% compared to 40% for single abstract submissions.
